What About Audio Accessibility?

How it works

Connect your earphones
or hearing aids

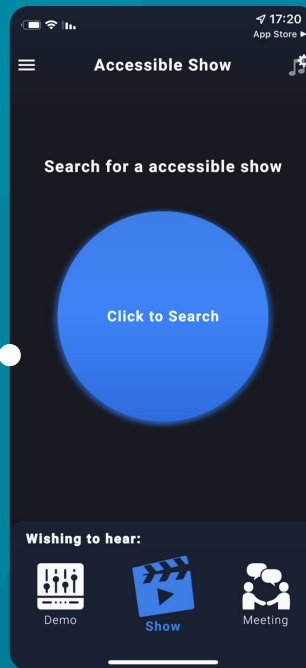

Cochlear
implants

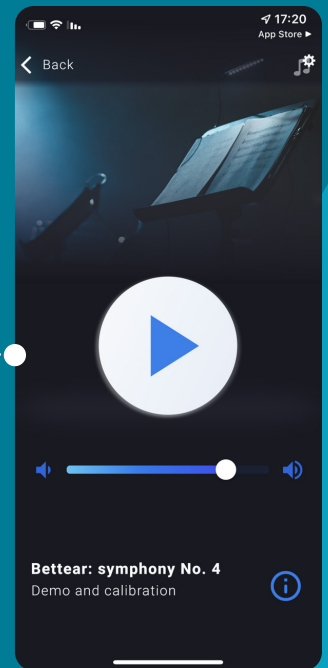

Hearing
aids

Headphones

Click on
"Tap to Search"

Listen and enjoy
the show!

LISTEN EFFORTLESSLY. BE PART OF THE MOMENT.

An AI-powered assistive listening solution that enables hard of hearing individuals to experience everyday social activities, just like everyone else.

Thanks to Bettear, institutions of all kinds - from concert halls to museums and universities - can offer full coverage of audio accessibility, without adding extra staff or equipment. A win-win for everyone.

Mobile application

Attendees can effortlessly access the Bettear app by downloading it from different application stores, free of charge. The setup is easy, and suitable for people of all ages and technical skill levels, letting them connect their own bluetooth enabled hearing aids, cochlear implants or headphones. Once connected, they can enjoy high quality, personalized sound.
